1 Implementation of Initiatives

1.1 Implementation of Green Protocol

In its commitment to sustainability and environmental stewardship, The Cochin College has implemented a comprehensive Green Protocol aimed at reducing waste and promoting eco-friendly practices across the campus. To spearhead this initiative, the College adopted a multi-pronged approach, beginning with the formation of a Green Protocol Committee. This committee, comprising both student and faculty representatives, plays a pivotal role in guiding and overseeing the implementation of the Green Protocol.

The committee's recommendations were prominently displayed at the college entrance, as well as in all departments, the library, and the college office, ensuring that the entire campus community is aware of and adheres to the green practices outlined. Below are the key actions taken by the College to effectively practice and promote the Green Protocol:
