## Preface

The Cochin College, is a Higher Education Institution situated in West Kochi, which is committed to providing educational opportunities for all students, regardless of caste, class, or gender. In a society that is progressing but still faces injustices due to disparities, the college plays a vital role in ensuring equality on all grounds. To this end, a gender audit is conducted annually to assess gender patterns within the institution by examining programs, practices, participation, and policies. The objectives of this audit include identifying any gender gaps and devising measures for improvement.

The primary focus of this audit is the evaluation of student and staff representation in the college. This involves examining the distribution of male and female students across different academic programs, reservation categories, and extracurricular activities. It also evaluates the distribution of male and female teaching and non-teaching staff within the college, as well as the participation of female staff in governance roles.

The audit found that The Cochin College is a welcoming and inclusive environment for students of all genders. However, there are areas for improvement, such as:

- Increasing the representation of women in faculty and leadership positions
- Creating more opportunities for women to participate in extracurricular activities
- Addressing gender bias in the classroom

We are committed to creating a more equitable and just campus for all students. The recommendations in this report will guide our efforts to achieve this goal.

## 1 Introduction

The Cochin College has a long-standing commitment to gender equality and has implemented various initiatives to achieve a gender-balanced environment. Since its inception in 1967, The Cochin College has been a cornerstone in advancing the empowerment of women in the West Kochi region. The institution has been instrumental in extending access to higher education for female students, particularly those from minority communities, the fishing industry, and other socially disadvantaged groups. By fostering an inclusive environment, The Cochin College has significantly contributed to the social and educational upliftment of these communities, thereby playing a crucial role in the broader emancipation of women in the region.

The college has established the women's Guidance Cell way back in 1994 to address gender issues and promote gender sensitization among students, faculty, and staff. The Forum organizes seminars, workshops, and awareness campaigns to educate the college community about gender equality and women's rights. The college also enforces a zero-tolerance policy for sexual harassment and has established a responsive complaint mechanism to address any such incidents.

In addition to these initiatives, the college has taken steps to increase the participation of women in sports and cultural activities, including establishing a women's sports team. The college also provides scholarships and financial aid to female students from underprivileged backgrounds. The efforts of The Cochin College to achieve gender balance have been recognized by various organizations. The Cochin College is committed to creating a gender-balanced environment for all its students, faculty, and staff. The college's initiatives are commendable and should be emulated by other institutions. From the year 2018 onwards the college initiated a gender audit to evaluate and improve gender equality and inclusivity within the institution and to ensure institutional compliance with the guidelines issued by various regulatory authorities.

To calculate the Gender Index using the provided data, we'll use the following formula:

$$\text{Gender Index (GI)} = \left( \frac{\text{Number of Female Students}}{\text{Number of Male Students}} \right) \times 100$$

The Gender Index provides a measure of the ratio of female to male students, with a value greater than 100 indicating more females than males, and a value less than 100 indicating more males than females.

Category	Male Students	Female Students	Gender Index (GI)
Overall Enrollment (UG & PG Programs)	314	592	188.54
