INDUSTRIAL VISITS AND FIELD VISITS

Industrial visits and field trips are invaluable components of a student's educational experience, bridging the gap between theoretical knowledge and real-world application. These excursions provide students with firsthand exposure to the inner workings of various industries, allowing them to observe practical implementations of concepts learned in the classroom. By interacting with professionals and seeing advanced technologies and processes in action, students gain a deeper understanding of their field of study. Additionally, these visits can inspire career aspirations and offer networking opportunities that might not be available through traditional academic settings. Overall, industrial and field visits enrich the learning process by providing context, fostering engagement, and enhancing practical skills.

INDUSTRIAL VISIT REPORT 2019-2020

Report on Industrial visit 2019 BBA In the view to fulfill the academic requirement and to bring the students to an exposure to the industrial functions, industrial visit is carried on as and how permissions from the industry is available. An industrial visit to Kerala Bamboo Corporation Ltd, Angamaly, Meriboy Ice Cream Factory and Tejus foods Perumbavoor was organized for BBA students on 28th November 2019. 90 students had registered their names for the same and 4 faculties had joined them. Betna Rodrigues, Jeffy Thomas, Febin George and Vijayakumar were the faculties in charge for the visit. The journey began from the college premises on 28th November 2019.

The first visit was made to Kerala Bamboo Corporation Ltd Angamaly. The students got an opportunity to understand the market scenarios, the importance of quality in manufacturing bamboo products etc. from the visit.

The second visit was made straight to the Meriboy Ice-cream Factory. The staff from the factory explain automation of dairy. The students can see machineries at work and how Ice creams are processed and packed.

The third visit was made to Tejus foods, Perumbavoor. The students were able to observe and learn the process of preparing variety food items, the working pattern at the factory, types of machinery used and its functioning. The students also observed the process of packing and sealing food items through an automated machine for a pre-fixed net weight and for a fixed number of packets. Students got a rare opportunity to see the variety of items which were in the process of preparation. The visit was a fruitful one with an interactive session.

THE COCHIN COLLEGE, COCHIN-2

INDUSTRIAL VISIT REPORT 2022-2023

The department of economics arranged an industrial visit to Munnar Tea factory for the Second Year BBA and Third year BBA on 01-12-2022. The students were accompanied by the three faculty members of the department-Betna Rodrigues (HOD), Jeffy Thomas, Febin George and Aswathy Regunath. The students visit tea factory and museum and got to know many interesting facts related to the process of manufacturing tea and all other related aspects of selling and distribution. The KDHP Tea Museum is an industry and history museum situated in Munnar, a town in the Idukki district of Kerala in South India. Tata Tea Museum is its official name, but it's also known as Nalluthanni Estate where it is located, or Kannan Devan Hills Plantation (KDHP) Tea Museum. It started in 1905 and is now a fully automotive factory. The tea museum preserves the aspects on the genesis and growth of tea plantations in Kerala. The museum houses curiosities, photographs and machineries, depicting a turning point that contributed to Idukki's flourishing tea industry. different process through which the tea is processed were witnessed by the students at various stages of the tea processing such as Crush, tear, curl – and learn about the production of Kerala black tea variants. A section of the museum also houses classic bungalow furniture and office equipment of the Colonial area in Kerala, model of rail engine operated in 1924. They also acknowledge the history of Munnar by going through the history of tea gardens in Munnar. The students were provided facility for purchasing different varieties of tea and enjoyed a cup of delicious freshly prepared tea.

PREFACE

The present report is a compilation of the events, places visited and activities of a one days educational trip to Kollam – Anchuthengu organized by the Department of Botany, The Cochin College, Kochi – 2 on 30 September 2022 with the aim to aid the students acquire basic knowledge of floral diversity and marine ecosystem. In addition, the Department also takes the opportunity for collecting various plant species of the region as specimens which would be documented, preserved and maintained in the Botany museum of the College for use in the curricular activities of B.Sc. Botany courses.

The Department of Botany, The Cochin College, Kochi – 2 is recognized as one of the best department in Mahatma Gandhi University, Kottayam as it emphasizes not only on the curricular syllabus but also the holistic development to the undergraduates of the department. So, the Department organizes an educational excursion annually for the B.Sc. Botany as a part of Out of the Box Learning program. For the academic year 2021-2024, 35 members Students from B.Sc. Botany 1st year participated for the tour. The students were accompanied by the faculty members (2) of the Department.

Faculty members:

1. Mr. ARUNKUMAR G, ASSISTANT PROFESSOR, DEPARTMENT OF BOTANY, THE COCHIN COLLEGE, KOCHI – 2
2. Mrs. ANCY ALEXANDER, TEMPORARY ASSISTANT PROFESSOR, DEPARTMENT OF BOTANY, THE COCHIN COLLEGE, KOCHI – 2

CONTENT

Field trip are arranged to give exposure to students. Field education is equally important as classroom teaching. It adds vigor in learning processes and relieves monotones of indoor education. Field study is an essential part of botany as plants are best studied in their natural habitat. These tours also help to build good repo amongst students and teachers.

As a part of B.Sc. Curriculum, one day trip was organized by to Kollam - Anchuthengu by Department of Botany, The Cochin College, Kochi – 2 on 30 Sep - 2022 for semester I (first year) botany students. The major objective was to familiarize the students with the wild and cultivated flora and ecology of the region. A group of 44 students were accompanied by Mr. Arunkumar G and Mrs. Ancy Alexander of Botany department.

And the trip started...

We started our journey at 6.00 am on 30/08/2022 and reached the location by 11.00 AM. All the students and faculty have assembled at the Anchuthegu beach and our study commenced with the exploration of surrounding open area so as to study plants in their wild habitat. We collected different species of plants representing major groups of plant. We walked up to 7 km through the beach for studying the habitat and collecting marine algae. We have also visited Anchuthengu fort and observed various topiaries, bonsai, vertical gardens, forming hedges with plants etc. After exploring Anchuthengu area, the whole team had a lunch in open garden enjoying the nature's beauty. On our return journey to college, stopped at Alapuzha – Vandanam Kavu where we collected different plant species. Students were trained to identify major groups of plants with their scientific name and economic importance, after identifying key characters of the representing group.

Now in the technical part of the trip, students have been explained all the characters of different plant species with the help collected sample by Mr. Arunkumar G and Mrs. Ancy Alexander. These way students get a unique experience of field and lab at the same moment. The trip successfully inculcated in students the practicality of different theoretical concepts of Botany.

Students collected and preserved plants for further studies under the guidance of Mr. Arunkumar G and Mrs. Ancy Alexander.

Sl.No:-	Generic name	Major group
01	<i>Ulva fasciata</i>	Algae
02	<i>Dictyopterus bartayresiana</i>	Algae
03	<i>Gelidium pusillum</i>	Algae
04	<i>Gracilaria edulis</i>	Algae
05	<i>Cladophora fascicularis</i>	Algae
06	<i>Sargassum ilicifolium</i>	Algae
07	<i>Funaria</i>	Bryophyte
08	<i>Cyathodium cavernarum</i>	Bryophyte
09	<i>Lycopodium cernuum</i>	Pteridophyte
10	<i>Selaginella keralensis</i>	Pteridophyte
11	<i>Nephrolepis sps.</i>	Pteridophyte
12	<i>Cycas revoluta</i>	Gymnosperm
13	<i>Zamia pygmaea</i>	Gymnosperm
14	<i>Casuarina equisetifolia</i>	Angiosperm – Dicot
15	<i>Cyperus rotundus</i>	Angiosperm - Monocot

CONCLUSION

Our study tour was very interesting; students participants interacted in a very well disciplined manner cooperated with the teacher's guides and over all the tour was grand success. We realize that viewing the flora in its natural form made as things vivid enhancing the classroom lectures and laboratory experiments.

Last but not the least I would like to mention the quotation 'practice without theory is blind and theory without practice is sterile'

So theory and practice must go hand in hand all the time.

PREFACE

An educational tour is an excellent opportunity for students to learn out of the class room setting. It provides a chance for them to experience different cultures, explore new places, and gain practical knowledge that they can apply in real life situations.

The main purpose of this tour is to broaden the student's horizons and enhance their learning experience. As a part of our study tour, 30 students from our class, 3rd BSc Botany 2021-24 batch went on a 5 day trip to ST: MARY'S ISLAND, MURUDESHWAR, GOKARNA, DANDELI from 4th to 8th January 2024.

We were accompanied by our teachers Dr. Nayana Jose C (Biochemistry Department) and Mr. Arun Kumar.G from the Department of Botany. The aim of this study tour was to awaken our minds to become future botanists by practically understanding the process of plant identification and collection herbarium preparation as well as to realize and appreciate the importance and beauty of the vast biodiversity of Western Ghats.

1DAY 1 MALPE BEACH AND ST. MARY'S ISLAND

With all excitement and happiness we began our journey with our beloved teachers and tour guide Akhil johny of aspire on 4th January 2024 at 5.10 am as we boarded Kochuveli Mumbai Ltt Sf Express from Ernakulam town railway station . On the way to mangalore we took our prepared breakfasts in train, and experienced with lot of green fields, fort, beautiful sunrise and many more exciting visual experiences. At 12.30 pm we reached mangalore central railway station. After half an hour our guide spotted the bus for our 4 days journey as we left for Udupi. By 1.30 pm we reached Udupi, freshened up, and had our lunch and left for St. Mary's Island and Malpe Beach by 2.30 pm.

We reached there within an hour and in no time stepped in for boating. The beach is a virgin beach, located at a distance about 6kms from Udupi. It is an important port and a fishing harbour in the state of Karnataka. The endless stretch of golden sand, graciously sawing palm trees, clear blue sky and the gentle murmur of the sea set a perfect tour mood. After 40 minutes of an astonishing boat ride we reached St Mary's Island. St Mary's Island also known as Coconut Island and Thonsepar are known for distinctive geological formation of columnar rhyolitic lava here from one of the four geological monuments in Karnataka state, one of the 34 National Geological monuments of India declared by the geological survey of India in 2016 for their protection , maintenance, promotion and enhancement of geotourism. We spent some valuable times in the Island, and enjoyed a lot with everyone. By 5.30 pm we reached malpe beach and spent some times at the sea shore. We seemed a beautiful sunset and took a walk through sea -shore. After all we went for a small shopping around malpe. By 8.00 pm we reached our stay on Udupi, freshened up and took our dinner by 9.00 pm. With a whole lot of excitementwe packed the kits, scissors, plant cutters, papers, and other equipments

Day 2 – GOKARNA

The next day we woke up at 6.00 am, freshened up and had breakfast. By 8.30 am we started our journey to the next destination “MURUDESHWAR” temple, which was located at the town of Murudeshwar in the Uttara Kannada district of Karnataka, India. It is dedicated to Lord Murudeshwara, who is considered one of the forms of Lord Shiva. The temple is famous for its large statue of Lord Shiva, which is the second tallest in the world. The statue is 123 feet tall and is surrounded by the sea on three sides. The temple also has the tallest temple tower in the world, which is 249 feet tall. The Shiva statue there was quite an impressive one and had filled us with a humble sense of tranquility. The temple is surrounded by beach in such a peaceful location. The atmosphere was extremely good & tranquil. It was a sunny day. We had taken a lot of pictures of temple, statues and ours. There were several shops near the temple. We had spent some happy hours together at “MURUDESHWAR” temple.

Then we had continued our journey to GOKARNA, which was 78 km away from Murudeshwar. Together in the bus we chilled a lot. We reached Kudle by 2.30 pm, we climbed up a hill, and reached our restaurant and had our lunch. After refreshment we went to cottage at Kudle Beach by 4.00 pm, which was one of the many beaches of Gokarna, and is known for breathtaking beauty and hypnotic appeal, situated only a short trek from Om Beach. It is shaped like a perfect sea and is surrounded by towering coconut palms. The beach offers the most silent and serene atmosphere to enjoy a sunset, a walk along the shore or simply sit and observe the never-ceasing tides. The Kudle beach was a very little crowd and quite serene.

THE COCHIN COLLEGE

email: email@thecochincollege.edu.in

The sea was calm and shallow enough to had a bath or simply for dipping our feet. We had great2 time there by chilling with our loved ones.

By 7.00 pm we returned to our cottages, freshened up and then by 8.00 pm moved to Siva cave, tucked away on a mountain side is an old sacred location known locally as “Gogarbha”. Because of the dim light it was little bit strange to reach there .When we enter into the cave, there were a huge number of bats. Inside the cave there was a Siva linga, and nothing to view more in there.

At 9.00 pm we moved to the same hotel that we had our lunch. It was little bit exhausting to reach there, then had our dinner. At 10.30 pm we returned back to our cottages. The night we spent on the beach in a small hut listening to the sound of the waves was perfect.

DAY 3 & 4- DANDELI

We woke up by 6, and freshened up. There was heavy rain in Gokarna so our whole day plan went wrong. There was a lag in starting our journey to our next destination Dandeli . After the rain we started our journey to Dandeli. Around 2pm we reached dew drops resort and had our lunch. After lunch we headed to do the water activities. We reached our destination at around 5pm and wear life jackets and get prepared for doing water rafting and kayaking. We were asked to wait a while for a raft to be prepared. Then we do the rafting and kayaking. It was a wonderful experience and we all enjoyed a lot. After doing water activities we returned to our resort.

We reached the resort at 9pm and there we had rain dance. After that we all go to our rooms and freshened up and have our dinner. After the dinner we all gathered for campfire. At around 12pm we started to press the plants that have collected earlier. We cut the plants for pressing and make it suitable for pressing. We take a plant press and placed a newspaper sheet on it and placed the plant over the newspaper and repeated these steps. Then we tie the plant press tightly using a rope and then we all returned to our rooms.

The next day we woke up at 5.30 and freshened up and go for doing trekking. It was an adventurous experience. During the way of trekking we collected plants. After trekking we returned to resort and had breakfast. Then we all played in swimming pool. After all we freshened up and packed our bags and headed to Karwar. We spend some time at Karwar market and had dinner and headed to Karwar railway station at 8.15pm and no time we boarded the Madgoan express with heavy hearts but filled with lots of memories. We changed the sheets of plants that we had pressed the day before and also pressed the newly collected

one and began our journey back to home. We reached Ernakulam railway station at 8.30am on 6th January. The most awaited part of our course had come to an end. The study tour helped each one of us to realise the scope of botany and especially the field of taxonomy. We learnt to analyse the flora of an area and view nature through a botanist's eyes. This was an unforgettable and once in a lifetime experience for all of us. We sincerely express our gratitude to Arun sir and Nayana ma'am for accompanying and guiding us. We also thank our HoD, Dr. Suprabha ma'am, principal Geetha ma'am and all our teachers from department of botany for giving us the opportunity.

Department of Chemistry

Report on Industrial Visit 2019-22

Department of Chemistry organized an industrial visit to CIPET (Central Institute of Plastics Engineering and Technology) for the students of final year B Sc Chemistry (Batch 2019-22) on 07-05-2022. CIPET (Central Institute of Plastics Engineering and Technology) Ernakulam is a premier institution for plastics engineering and technology. Industrial visit to CIPET Ernakulam provided valuable insights into the latest technologies and trends in the plastics industry.

DEPARTMENT OF CHEMISTRY INDUSTRIAL VISIT 2020-21

The students of 2018-21 batch were taken for industrial visit to CIPET, Kochi. Central Institute of Petrochemicals Engineering & Technology (CIPET) (formerly known as Central Institute of Plastics Engineering & Technology (CIPET)) was established in 1968 by Government of India with the assistance of United Nations Development Programme (UNDP) at Chennai. The main objective of setting up of this specialized institute was to develop manpower in different disciplines of Plastics Engineering & Technology as no similar institute was in existence in the country

Today CIPET is a premier Academic institution for higher & technical education under the Ministry of Chemicals & Fertilizers, Govt. of India fully devoted in all the domains of plastics viz: - Design, CAD/CAM/CAE, Tooling & Mould Manufacturing, Production Engineering, Testing and Quality Assurance. CIPET operates from various locations spread across the country to cater the needs of the Polymer and allied industries. CIPET has established a centre at Kochi since 2012 - Centre for Biopolymer Science & Technology (CBPST) - with the fund support of Govt. of India as well as Govt. of Kerala. CBPST is renamed as CIPET: IPT - Kochi from March 2018.

Department of Chemistry

Report on Industrial Visit 2020-2023

The Department of Chemistry organized an industrial visit to the Central Institute of Plastics Engineering and Technology (CIPET) for the final year B.Sc. Chemistry students (Batch 2020-23) on 14-03-2023. CIPET Ernakulam, a premier institution for plastics engineering and technology, offered valuable insights into the latest technologies and trends in the plastics industry.
