LIBRARY USAGE

1. Effective Usage

The Cochin College library is automated using Koha- Integrated Library Management Software which has a comprehensive suite of functionalities to manage library operations efficiently. The college community optimally make use of the library resources both online and offline. The college library plays a crucial role in supporting teaching, learning, and research activities through its personalized services, assistive devices and outreach programs. Library always enhances the college community by fostering a culture of intellectual inquiry, innovation, and academic excellence.

2. Remote Access

The college library is automated using Koha- Integrated Library Management Software which has advanced features that enables computerized management of library operations. Online Public Access Catalogue (OPAC) enables the members to search and locate books available in the library. Open access system in the library enables the users to browse through the books physically in the stack area.

The College library is subscribed under N-LIST Programme of INFLIBNET which provides access to 7954441 e-books and 6,237 e-journals. An Institutional Repository has been developed with DSpace software serves as a platform for preserving digital content. Previous year Thesis and Dissertations can be accessed from library through network resource centre.

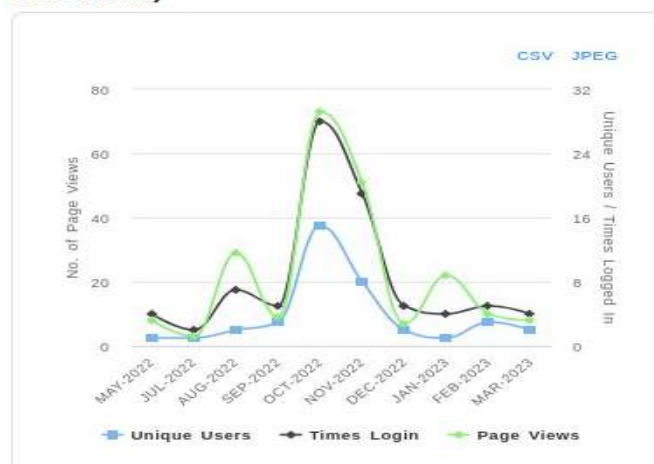

The library has DELNET database subscription which enables users to access e-books, e-journals, theses/dissertations, language learning portals and online databases.

The Network Resource Centre helps users to access e-resources, enables browsing, a fully networked 10 computer stations in the library provide access to various E-resources and OPAC.

Library also provides a Long- Range Reference Service to support research with assistance under CUSAT Institutional Membership.

Digital Reference Service is provided in a speedy manner on academic topics and previous year question papers. It will be delivered through e-mail submitted to the library by the staff and students. Library also promotes Plagiarism detection and academic integrity using Turnit software (Outsourcing).

3. Electronically Guided Physical Access

The Cochin College library leverages technology to streamline operations and enhance services for students, faculty, and staff. Library uses an Integrated Library Management Systems (ILMS) Koha which provide online catalogs where users can search for resources. Barcode systems automate the check-in, check-out, and renewal processes. This reduces manual handling, speeds up transactions, and minimizes errors.

An electronically controlled pathway is installed at entry points to regulate the flow of users into the library premises. These barriers can be configured to allow entry based on valid authentication through College ID Card. The college authority issue electronic identity cards that serve as both identification and access credentials.
